This workbook/exam is designed to comply with occupational safety and health administration, hazardous waste operation, and emergency response requirements.

This workbook/exam is not designed to replace the forty-hour hazardous materials technicians' training manual, but it is designed to highlight and to enhance the areas that are important for example, hazardous materials, chemistry, toxicology, hazardous waste management, the selection of personal protection equipment, confined space entry, emergency response, and decontamination procedures.

This workbook/exam is the test that goes hand in hand with the "Hazardous Materials Technician" training manual.

This workbook/exam will cover the simple fact that most regulations are enforceable by law, while standards will promote "Safe Work Practices," along with the importance of proving a safe work environment for our workers.

This workbook/exam will also give the reader the ability to understand the difference between emergency response, remediation, and the treatment the storage and the disposal of hazardous waste.
